EXPERIENCE AND PROJECTS

Client Websites – KYCA Academy   **Jan 2025 – Mar 2025**
Full-Stack Developer

- Engineered a fully responsive web platform for KYCA Cricket Academy, delivering seamless user experience across devices with optimized performance.
- Developed a comprehensive player management system enabling secure registration, roster oversight, and performance data organization for administrative use.
- Integrated a contact and query capture system with a centralized admin dashboard, streamlining communication and query resolution.
- Designed and deployed a modular admin panel allowing non-technical staff to manage events, update content, and monitor user activity efficiently.

JobSearcher – Job Aggregation Platform   **May 2025 – Jul 2025**
Full-Stack Developer

- Led a 2-member team in developing a scalable job aggregation system that scrapes listings from Naukri, LinkedIn, and TimesJobs using Puppeteer with stealth plugins and rotating proxies.
- Architected advanced filtering mechanisms based on experience level, location, company, tags, and source to enhance search precision and user personalization.
- Implemented automated data validation and deduplication pipelines using BullMQ and Redis for high data integrity and system reliability.

CodeVista – Online Coding Platform   **Dec 2024 – Jan 2025**
Backend Developer

- Developed a server-side code execution platform supporting C++, Java, and Python.
- Implemented secure containerized environments with timeout/memory limits using Docker.
- Enabled real-time compilation and instant feedback for student code submissions.

EDUCATION

Degree/Certificate	Institution	Year	CGPA/%
B.E. Electronics and Communication	Bangalore Institute of Technology, Bengaluru	**2022–2026**	**8.51**
Class 12 (PU Board)	Narayana PU College, Bengaluru	**2022**	**85%**
